Cover Photos by Joe Cernik

The impact of the coronavirus on the St Louis area. The picture in the UPPER RIGHT is Main Street, St. Charles. Usually a busy street well lit with restaurants open is close to deserted with one restaurant offering curbside pick-up. The picture in the LOWER RIGHT is a Walmart in Wentzville where an employee stands directing customers to enter the store, keeping the number of customers inside to a minimum. The picture in the UPPER LEFT is deserted parking lot in Chesterfield Mall, a lot which would normally be filled with cars. The picture in the LOWER LEFT is Interstate 64 looking East about a half mile from the Daniel Boone Bridge. This picture was taken at rush hour (5pm) and shows few cars at a time when normally traffic would be backed up.
