A business meeting of the faculty was held on Tuesday, January 15, 1929, in Room 225 Roemer Hall.

Dr. Gipson presided and made the following announcements:

1. That it was believed that a very good type of teaching was done in Lindenwood and that she appreciated all the efforts of the faculty in giving extra time to students.

2. That as regards examinations the following points ought to be noted:

a- that Freshmen ought to be told the purpose of examinations and ought to be given some idea as to how to prepare for them

b- that examinations ought not to be too long.

c- that a student who has done fair work in the term but who fails in the examination ought to be given a chance at a condition examination, after she has had some time in which to study for it.

d- that all students who are making I and F grades ought to be warned of their status.

e- that all grades of I and F should be explained on the back of the grade card in an intelligent manner.

3. That teachers ought to check up periodically upon the length of assignments. Each instructor needs to realize the fact that students have more than one or two courses to prepare for.

4. That sponsors of organizations that are planning entertainments in the near future should abandon any rehearsals for these entertainments from this time on until after examination period.
