History of St. Charles

The history of St. Charles runs back to an early period. Its inhabitants have owed allegiance to three powers, Spain, France and the United States government. St. Charles is located on the great Missouri River with two trunk line railroads. The M. K. & L. and the Wabash; with lines radiating to all parts of the North, West and South affording all the advantages in rates on raw material and manufactured products as enjoyed by enterprises located in St. Louis, St. Louis rates applying to and from all principal points. This makes St. Charles an ideal location for all kinds of manufacturing enterprises. In addition to the many manufacturing industries; the American Car and Foundry Company is the largest and most important enterprise in St. Charles also the New Modern Factory of Roberts, Johnson & Rand Shoe Company which located here in 1906 whose shoes are known in every state in the Union, and gives

employment to about four hundred of St. Charles industrious people.

St. Charles has also an electric line communicating with St. Louis every thirty minutes during the day and is a convenient and delightful place for those desiring homes near a great city. The religious and educational advantages cannot be excelled anywhere it has 13 large prosperous churches, one High School and several Public Schools. St. Charles is truly an ideal city.

The streets are in good condition, well lighted and kept, the water facilities unsurpassed for residence or manufacturing purposes and the sewerage ample for many years service and considerable expansion. In fact few cities have any more advantages, and few of them as abundant as St. Charles, and to the citizen who would live and labor, or the manufacturing plant that requires large acres and steady hands, this city bids you welcome.

-:- Fire Alarm Boxes -:-

The following schedule gives the numbers and locations of the various fire alarm boxes in St. Charles:

- Box No. 13—McDonough and Fourth
- “ “ 15—Perry and Main.
- “ “ 21—Jeff. and Kingshighway.
- “ “ 23—Clay and Sixth.
- “ “ 25—Jefferson and Main.
- “ “ 31—Clark and Main.
- “ “ 32—Clark & Kingshighway.
- “ “ 36—Clark and Sixth.
- “ “ 41—Morgan and Fifth.
- “ “ 42—Montgomery and Second
- “ “ 43—Howard and Third.

As soon as the alarm is sent in the whistle will give a long blast followed by the number of the box. The number will be indicated by toots of the whistle. For instance, 32 would be indicated by three quick toots and a space, then 2 quick toots.

Charles E. Meyer's Reputation as a druggist has been acquired through close devotion to business.

Is a graduate of Pharmacy. Operates his Pharmacy in strict compliance with the law

CALL, WRITE OR TELEPHONE ME.

The Ladies' World

The Ideal
Publication for
WOMEN
And The
Home

Edited by
CHAS. DWYER.

Literary Attractions

The serials, short stories and verse include the work of the foremost authors of the day, whose names stand for the best quality of bright, entertaining and wholesome writing.

Domestic Science Departments

These departments constitute one of the strongest features of the magazine. They are conducted by well known authorities on their respective subjects, and are especially helpful because they are always most practical.

Fashions and Dressmaking

The former dressmaking expert of The Delineator has charge of these pages, and her descriptions of the new fashions and hints on their making prove valuable to the home dressmaker. All the styles illustrated are the latest and best of the New York and Paris designs.

Special Features

Especially popular contributions are the beautifully illustrated "Special Feature" articles published each month, that entertainingly treat of some historical, biographical or musical subject; the department dealing with Etiquette and Good Looks; and the pages devoted exclusively to Stories and Pastime for Children.

Price, 50c Per Year

This small sum secures to the subscribers a beautifully illustrated and printed monthly magazine of from 36 to 48 large sized pages— unquestionably the best and at the same time the cheapest high grade domestic magazine in America.

Subscription Inducements

Write for 20-page illustrated Premium List describing over 250 different premiums, or send for our Special Terms for Cash Agents.

CHAS. DWYER.

Literary Attractions

The serials, short stories and verse include the work of the foremost authors of the day, whose names stand for the best quality of bright, entertaining and wholesome writing.

Domestic Science Departments

These departments constitute one of the strongest features of the magazine. They are conducted by well known authorities on their respective subjects, and are especially helpful because they are always most practical.

Fashions and Dressmaking

The former dressmaking expert of The Delineator has charge of these pages, and her descriptions of the new fashions and hints on their making prove valuable to the home dressmaker. All the styles illustrated are the latest and best of the New York and Paris designs.

Special Features

Especially popular contributions are the beautifully illustrated "Special Feature" articles published each month, that entertainingly treat of some historical, biographical or musical subject; the department dealing with Etiquette and Good Looks; and the pages devoted exclusively to Stories and Pastime for Children.

Price, 50c Per Year

This small sum secures to the subscribers a beautifully illustrated and printed monthly magazine of from 36 to 48 large sized pages— unquestionably the best and at the same time the cheapest high grade domestic magazine in America.

Subscription Inducements

Write for 20-page illustrated Premium List describing over 250 different premiums, or send for our Special Terms for Cash Agents.
