Skill Center Seeks Course Aids

The Skill Development Center is currently conducting math, writing, and reading refresher classes mainly for incoming freshmen. It is a goal of the Center to offer aid to all students who may need assistance. One way this can be accomplished is to offer the use of supplemental course material. The Skill Development Center would like to collect cassette tapes, software for Apple II computers, and any other materials such as examples of term papers or essays which would be helpful to our students. These materials will be used in the Center and will not be allowed to be checked out. If you have any items that will help us attain our goal, please call or write the Education Department or Rose Knauper, Instructor of the Skill Development Center.

Book Orders Needed Now

Book orders for the spring courses beginning in April and May are needed immediately. Cynthia Lowing at the Lindenwood Bookstore is urging professors to turn them in as soon as possible. She says it takes publishers some time to process orders so you should get your order in today.
