Warner Hall Struck by Tree, University Relations Temporarily Relocated

If a tree falls on a campus building and no one is there to hear it, does it make any noise? Yes, it does.

In the early morning hours of Friday, Aug. 9, a large tree next to Warner Hall, home of the University Relations Department, fell onto the roof of the building inflicting damage primarily to the roof and attic. No one was in the building at the time, and no one was injured. While repairs are being conducted on the building, the University Relations staff will be temporarily relocated. University Relations consists of Marketing, Communications, and Development staff. Temporarily, the best way to contact University Relations staff is email.
