## To the Alumnae of Lindenwood College

The college sends you this little book with the hope that it will serve to renew again your interest in the college and its graduates. Believing that the true test of the worth of any college is what is being done by the old students who have gone out to take their places in the world, this information has been gathered. The college is proud of what the old Lindenwood girls have done, and are doing, and feels that the wishes of the founders and benefactors of the college are being carried out. Truly, Lindenwood girls are ministering to others.

We have endeavored to make the information as complete and correct as possible and request that any errors be reported at once to the office.

The college wishes to thank the Alumnae for the prompt responses to the questionnaire, and to assure you all that we are interested in you and your success. We hope that it will be possible for you to visit the college in the near future and renew again your allegiance to your *Alma Mater*.
