

# LINDENWOOD COLLEGE COMMUNIQUE

VOL. FIVE, NO. 20

DEC. 9, 1986

## NAIA CITES FOUR COEDS . . . .

Following their recent fourth-place national finish in the National Association of Intercollegiate Athletics (NAIA) Final Four Soccer Tournament, members of the Lady Lions have received more citations. Freshmen Jannett Crook and Beth Neyman have been selected to the NAIA All-Tournament Team, while freshman Kristen Wixson has been selected to the NAIA Regional Team. Honorable mentions went to junior Debbie Johnson and sophomore Jill Holstrom. Making it to the NAIA final round of play, Coach Debbie Kehm and the women's team had their most successful season in college history.

## SNOW CLOSING POLICY . . . .

If inclement winter weather forces the cancellation of classes, Lindenwood will use the following procedures for closing:

For day classes, those from 8 a.m. to 4:30 p.m., a decision will be made by 4:30 a.m. and announced on KMOX-AM at 5:30 and 6:30 a.m. and on Lindenwood's KCLC-FM at 6:05, 6:35, 7:05 and 7:35 a.m. If day classes are cancelled, college offices and facilities will be open, and all non-academic personnel should report to work as usual.

Any announcement about day classes will not affect Evening College or LCIE classes that night. A separate decision and announcement will be made after 3 p.m. An announcement cancelling Evening College and LCIE classes will close all such classes not only at the main campus but at locations in Clayton and Manchester and at Westport and Mansion House centers. Campus Security and Switchboard offices will be notified of any decision about closing as soon as it is made.

## OUTSTANDING COEDS SOUGHT . . . .

Female students have until December 19 to enter the 1987 Top Ten College Women Competition, a national contest sponsored by GLAMOUR magazine to select 10 outstanding coeds at college and university campuses. Winners will be chosen on the basis of individual academic achievement and participation in extra-curricular activities on campus or in the community. Winners will be featured in the magazine, receive media exposure and win an all-expenses trip to New York City to participate in meetings with professionals in their areas of expertise. For applications and further information, contact the PR Office at Ext. #383.

## GATEWAY TO CAREERS . . . .

Students who have completed or will complete undergraduate degrees between May and August, 1987, can participate in the first St. Louis Area Collegiate Job Fair, March 6 from 9 a.m. to 4 p.m. at St. Louis Community College at Forest Park. Registration is required, and it must be made by January 16.

According to Randi Wilson, CAP Center director, several requirements have been established jointly by the more than 30 colleges and universities that will be participating. "Students should be interested in entry-level jobs and, through their own school, must attend a Job Search Workshop or schedule individual appointments for assistance in resume writing, interviewing and appropriate attire and conduct," she said. "Students must provide at least three copies of their resumes and must complete a registration form in triplicate and pay a \$10 registration fee.

"This is an excellent opportunity to meet many area employees with a variety of positions or job openings," Wilson said. "Competition will be intense among the more than 1,000 students expected to attend. It is essential that Lindenwood students are well-prepared. Only pre-registered students and graduates who have been processed by the CAP Center will be admitted."

For further details on preregistration, contact Wilson or Debbie Coates at the CAP Center, extension #237. Remember, no registrations will be accepted after January 16!

## RESUME REFERRAL SERVICE . . . .

Students interested in the National College Association's Resume Referral Service can contact Debbie Coates in the CAP Center, extension #307, for usage and information.

RANDY L. WALLICK, Editor

JAMES I. SPAINHOWER, President

"Communique" is published each Tuesday during the fall, winter and spring semesters and biweekly during the summer. Produced as a joint effort of the college's Public Relations Office and Printing Center, it is disseminated to all faculty, staff and students. The deadline for submission of editorial copy is 9:00 a.m. Monday prior to Tuesday's publication; copy should be sent to the Public Relations Office.

#### BUY A PERIODICAL . . . .

Pick up a copy of the December issue of DUN'S BUSINESS MONTH, MONEY, NATION'S BUSINESS, NEWSWEEK, SPORTS ILLUSTRATED, TIME, U.S. NEWS & WORLD REPORT or WORKING WOMAN magazine and see a full-page ad for Lindenwood, entitled "A Great American College for All Ages." For the first time, Lindenwood is advertising in regional editions of the eight national magazines. Combined readership of the eight periodicals is more than 1 million.

Coupled with the magazine advertising, the college also is utilizing KMOX-AM Radio during December for live announcements by Bruce Bradley on LCIE offerings, Saturday Campus and M.B.A. degrees for the spring term. Also, the "Great American College" ad appears in the December issue of ST. LOUIS MAGAZINE and in three weekly issues of the RIVERFRONT TIMES. Total saturation of the print and broadcast campaigns is estimated at nearly 1.4 million.

#### HOLIDAY CAP CENTER HOURS . . . .

Office hours for the CAP Center in Niccolls Hall now through December 19 are from 8:30 a.m. to 5 p.m. daily

#### DISCOUNT TICKETS FOR NCAA ACTION . . . .

Discount tickets for faculty and staff are available for the December 23 bout at the Arena featuring the Harlem Globetrotters and the National College Athletic Association match between the Tigers of the University of Missouri and the Fighting Illini of the University of Illinois. Savings of \$2 off regular ticket prices of either \$8 or \$10 can be obtained with discount coupons, available in the Public Relations Office, #6 Roemer. Orders must be received by December 15.

#### AHOY, MATE, WANNA BE A SEAMAN?

Students interested in a career in the Navy or those who would like information about the U.S. Navy, contact Debbie Coats in the CAP Center, extension #307.

#### BIOLOGY FACULTY PUBLICATIONS . . . .

Bill Tietjen, associate professor of biology, is the author of two publications this semester, both concerning the Mallos gregalis, a social spider of Mexico. The first publication by J. Arachnol looks at the effects of colony size on web structure and behavior while the second, by Stanford University Press, is a review of social behavior in spiders.

Tietjen and Rao Ayyaggari, assistant professor of biochemistry, wrote a paper which will be published this spring in the JOURNAL OF CHEMICAL ECOLOGY. Concerning chemical communication in a wolf spider, the paper represents both the first analysis of the chemistry of a spider pheromone (a chemical "perfume" used for communication) and demonstration of a male-produced pheromone. Both professors also are working on writing two other articles, both concerning the social species, and are setting up research during Christmas recess. Ayyaggari and Tietjen, who have been included in this year's edition of WHO'S WHO IN BIOTECHNOLOGY, will be featured on KPLR-TV's "Missouri Conservationist" program, tentatively scheduled to air at 8 a.m. December 20 and at 12:30 a.m. December 22.

#### STUDENT INTERNSHIPS AVAILABLE . . . .

The Muscular Dystrophy Association in St. Charles needs student interns to assist with its fund-raising programs next semester.

January 31 is the application deadline for a Minority Reporting Intern Program this summer for sophomores, sponsored by the Dow Jones Newspaper Fund.

February 4 is the application deadline for an internship offered this summer by the Direct Marketing Educational Foundation.

Interested in any of these? Then contact Debbie Coats in the CAP Center, extension #307, for details.

#### PROGRAMMING LANGUAGE TRANSLATORS . . . .

LISP and Pascal programming language translators are available on the Math and Computer Science Department's PDP-11/44 academic computer system, according to John Dooley, assistant professor of computer science. LISP is a language designed for use in Artificial Intelligence applications programming, and Pascal is a high-level programming language useful in teaching structured programming. The Pascal language translator is being used in this semester's course, CSC 407 - "Data Structures & Algorithms" and the LISP translator will be used in next semester's course, CSC 311 - "Artificial Intelligence."

The languages were acquired as part of a package of programs included with the UNIX operating system from the University of California at Berkeley. Dooley modified the language programs and installed them to run on the college's academic computer. Commercially-available versions of these languages cost about \$5,000 each plus installation, Dooley said.

"Communique" resumes weekly publication on January 13; the deadline for copy is no later than 9 a.m. the preceding day.
