By PRESIDENT GAGE

RECENTLY I have been reading about sabotage. It occurs to me that it stands for everything that Lindenwood does not stand for. It may be well to remember this as we prepare to enter upon the work of another academic year. It should be remembered by the president, directors, teachers, students, and employees. Our government today is drafting men for military service. However, no citizen is exempt from serving the nation's cause. Service all along the line of useful occupation is selective. Each person by use of his own intelligence and by help of competent counselors is supposed to be in his own place and there to do what he is best fitted to do for his country at war. In that scheme of things Lindenwood people have a place reserved for them. It is especially protected from distractions that prevent performances of duty. It is approved as essential by officers of government and by leaders of our national life. That a saboteur is intolerable in such a place is so obvious that mere mention of the fact may well seem to be gratuitous and strangely inappropriate. It is somewhat like saying that we do not put poison in our food and do not keep rattlesnakes in our dormitories. Everyone knows that. So why mention it? Because "Eternal vigilance is the price of liberty." In other words, alert intelligence is the price of liberty; also spiritual sensitivity.

Sabotage is at once a common word and a curious one. It has an obscure origin. To tread with wooden shoes is supposed to be its original meaning. Such shoes, dirtied by use in a barnyard, were left outside when entering one's dwelling. So, too, they were left at church doors. To have worn them inside the sanctuary would have been a species of profanity. So sabotage came to mean something that defiles any sort of purity. By extension of meaning it has come within the last forty years to refer to any willful and malicious effort

to destroy a hated employer's property. In war time it is used to describe the surreptitious attempt of disloyal citizens and alien enemies to demolish war industries. Finally by refinement of meaning a saboteur tries by all sorts of wiles, deceits, subtleties, and machinations to wreck national ideas, ideals, and plans.

This newer meaning of sabotage is stronger. It is the one I have in mind. When the founders committed Lindenwood to the "development of the national mind" they imposed on us today the important business of educating for democracy. On campus and off we must fight the subtle destruction of moral and spiritual ideals. We must expose false news and lying propaganda and throw the light of truth on moral and spiritual falsehood.

Our campus is no place for destructive criticism. That is defeatism which is sabotage in its worst form. It breeds fear and suspicion. It undermines good citizenship, social responsibility and public leadership. To a tendency of that kind we are opposed. Our attitude on campus and in classroom is positive. Fault-finding is not the distinguishing mark of a scholar. A real scholar is a great believer. Being free from paralyzing doubt and fear which sabotage the very soul of a man, he becomes a great doer. On this point I quote with approval a telling statement of Theodore Roosevelt: "Aggressive fighting for the right is the greatest sport in the world." A saboteur is always against something. It is a good deal better to be for the right and to fight for it. The better way is our way. We love Lindenwood; we love the United States of America; we believe in its fundamental institutions and in its future. Carl Schurz, great German-American patriot and a great character in this community many years ago, emphasized our point, "My country right or wrong;

Lindenwood Begins 117th Collegiate Year on September 20th

Capacity Enrollment and Large Waiting List This Fall—Week's Faculty Conference to Precede Opening of Registration—Big Sisters Arrive September 18

LINDENWOOD will begin its 117th collegiate year with a capacity enrollment and the largest waiting list in the history of the college. This announcement by President Gage emphasizes the growing recognition of Lindenwood as one of the leading colleges for women in this country.

Preparations have been completed for the return of the student body on September 20 when registration will begin. Registration and conferences with faculty advisers will continue through September 22, and classes will be organized on September 23.

The Big Sisters, an organization of upperclassmen, will arrive on September 18 and will be on hand to welcome the new students and help orient them into college life.

The faculty and administrative staff will hold a week's conference on the campus, beginning Monday, September 13. Dr. Gage will preside at the conference sessions. Following a luncheon Monday noon, Floyd W. Reeves, professor of administration in the Department of Education at the University of Chicago, will speak. His subject will be "Some Facts and Problems of Demobilization and Rehabilitation of Civilian and Military Personnel." There will be a dinner at 6 p. m. in Ayres Hall, to which the families of conference members will be invited.

Prof. Reeves was graduated from Huron College during Dr. Gage's presidency there. He entered government service as director of personnel of the T. V. A. He served as chairman of the President's special committee on education and was also director of the National Youth Commission. Later he was first assistant to Sidney Hillman in the old War Production Board. At present he is chairman of the President's advisory committee on demobilization and rehabilitation of civilian and military personnel.

Tuesday morning, Dr. George A. Works, dean of students and professor of education at the University of Chicago, will be the principal speaker. Dr. Works, who is Lindenwood's director of institutional study, will discuss "Prophetic Curricular and Administrative Blueprints of the Post-War World." The theme of the afternoon session will be "Building a Freshman Class." The speakers will be Guy C. Motley, secretary of the college and assistant to the president; Dr.

Alice E. Gipson, academic dean, Dr. Raymond L. Garnett, Dr. Homer Clevenger and the Enrollment Counselors.

At the meeting Wednesday morning there will be a report of the Freshman Counseling Committee. Miss Rachel M. Morris will speak at the afternoon session on "A Psychologist Looks at Post-War Counseling."

Thursday morning Miss Kathryn Hankins, who attended the University of Minnesota Teacher Education Workshop this summer, will report on her work there. Other speakers Thursday morning will include Miss Pearl Walker, Miss Dorothy Deach, Miss Mary Morrison, Dr. Elizabeth Dawson and Dr. Alice Parker. They will give a report of their work as holders of Summer Scholarships for the Faculty.

At the afternoon session Dr. Works will discuss "In Retrospect and Prospect" and Dr. Gage will present "The President's Summary of the Conference Proceedings."

Friday the conference will be devoted to plans for registration and the reception of students. Dr. Gipson will announce the program for registration and Mr. Motley will outline the arrangements for the reception of students.

Lindenwood Alumna Wins Recognition in Business Career

This is the story of a Lindenwood alumna who has made good in business while her husband is wearing the uniform of his country. She is Mrs. Lillie B. Goudchaux, of Baton Rouge, La. Her husband, Harry Goudchaux, enlisted in August, 1942, and since last November has been stationed in Alaska.

In January Mrs. Goudchaux began her career as the representative of the Life and Casualty Insurance Company of Tennessee. Recently the company's publication, "The Mirror," devoted an article to her success, citing her as one of the company's leaders among women agents, and a regular member of the Application-a-Week Club.

Mrs. Goudchaux was a member of the Class of '29, and her classmates will remember her as Lillie F. Bloomenstiel. Mr. and Mrs. Goudchaux have two sons, one 12 years old and the other 6.

Dr. B. Kurt Stumberg Dies After Short Illness

Known to Several Generations of Lindenwood Students, He Served for Thirty Years on Board of Directors and as College Physician

LINDENWOOD COLLEGE lost a valued friend on August 20 when Dr. B. Kurt Stumberg, college physician and member of the Board of Directors, died at his home, "The White Oaks," near St. Charles, after an acute illness of ten days.

Dr. Stumberg served as a member of the college's Board of Directors for more than thirty years, and he was for many years the college physician. At the time of his death he was chairman of the Finance Committee of the college. During his long association at Lindenwood he knew thousands of Lindenwood students, to whom his death comes as a personal loss.

Dr. Stumberg devoted much of his time to the college and his counsel was freely sought and freely given. He was widely known in his profession and as a leader in the community. He served as a medical officer in both the Spanish-American and the first World War.

Dr. Stumberg was educated in St. Charles College and studied medicine at the University of Maryland and in medical schools in Baltimore. He did post-graduate work in medicine in Germany and came to St. Charles thirty-six years ago.

He is survived by his wife, Mrs. Marian Kriete Stumberg; two daughters, Mrs. Frances Nuelsen and Miss Marian Stumberg, both of Washington, D. C.; two sons, Kurt Stumberg, of Norfolk, Va., and Lieut. H. Kriete Stumberg, now stationed in Boston, Mass.; a brother, Dr. Wilfred Stumberg, of the University of Texas and now in Government service in North Africa, and four sisters, Mrs. W. A. Ferguson, Miss Alma Stumberg and Miss Helene Stumberg, of St. Charles, and Mrs. Dorrit Stumberg White, of Lexington, Ky. To them Lindenwood extends its deepest sympathy.

In recognition of his long service to the college, a future issue of the Bulletin will contain a memorial to him.

when right to be kept right; when wrong to be set right."

All that I have said has reference to our discharge of institutional responsibility in a time of national crisis. It also refers to personal responsibility. Education is a very personal thing. For each one of us the question now is, What am I going to do with myself? When my country needs me am I going to sabotage the very best things in me? Our enemies are destroying religion. We fight for religious freedom. Are we religious and positively so? Religious indifferentism is today a greater enemy of Americanism than atheism. Do we mean to preserve the democratic way of life in ourselves and others? Do we believe in honesty in private and public life? Are we going to maintain our great institutions such as churches and colleges and hospitals? Will the freedom and safety of the individual be guaranteed in perpetuity in this country? Our answer is yes. Therefore in the educational process in Lindenwood we are going to be positive and aggressive. We are going to "overcome evil with good." We believe in goodness, honesty, the fatherhood of God, the brotherhood of man, moral character, purity of life and the ultimate triumph of righteousness. Therefore, to each one we say, "Keep thy heart with all diligence; out of it are the issues of life." Guarding the heart is safeguarding democracy which depends ultimately on citizens who submit to the inescapable authority of the love of excellence. Such love is never developed apart from a process known as education.

More Stars Are Added to Lindenwood's Alumnae Service Flag

LINDENWOOD is proud of its loyal daughters who are serving their country in all branches of the armed services and on the home front. This page is devoted to news from and about alumnae who are engaged in war service and the editor asks that such news be sent to the Bulletin in order that the alumnae war record may be as complete as is possible.
