### **Hunt Ferrarini to Present Webinar on North and South Korea**

Dr. Tawni Hunt Ferrarini will present a webinar, "Why Do Some Nations Prosper? The Case of North and South Korea," on Aug. 21 from 6-7 p.m.

Economists have debated for years why it is that some nations prosper while others do not. The Democratic People's Republic of Korea (North Korea, DPRK) and the Republic of Korea (South Korea, ROK), for example, started out as poor nations after World War II. Now, South Korea has the same wealth as Western European nations, on average, yet North Korea firmly remains at the bottom of the world's development ladder. This

webinar will explore and explain why institutions matter and are fundamental to economic success.

This webinar is for for audiences that include high school teachers of economics, history and social studies. [Register online](#).
