OUR MISSION

The Lindenwood University Music Program is committed to preparing our students with the skills, musicianship, technological understanding, and entrepreneurial tools to succeed in diverse careers as 21st century music professionals. Together we strive to provide our students with the experience necessary to understand and define the craft, business, and teaching of music.

BA MUSIC BUSINESS AND ENTREPRENEURSHIP

Geared toward the 21st century music industry, this degree exposes students to a wide cross-section of specialties. Emphasis is placed on production, recording, digital music creation, and entrepreneurship to ensure that students graduate with intent and purpose as they enter the workforce.

BA MUSIC WITH EDUCATION

This degree offers students the same opportunities found in the BA Music degree, and also equips students with the experiences and coursework necessary for a career in K-12 music education. Fulfills the MO State requirements for K-12 music teacher certification, with emphases in vocal or instrumental music.

BA MUSIC PERFORMANCE

This program is designed for the student bound for Western-European classical training and performance, with emphases in vocal or instrumental music. With intensified ensemble and lesson requirements, this degree prepares students for both graduate-level work and performing with symphony orchestras, operas, chamber ensembles, and other professional musical ensembles. Degree acceptance is audition-based.

BA MUSIC

This degree provides a solid foundation in the study of all aspects of music, including theory, historical context, performing, conducting, composition, and technology. A high number of elective courses provide students the opportunity to gain knowledge about a wide range of specialized music topics.

MINOR IN JAZZ AND CONTEMPORARY MUSIC

This minor program is designed as a supplement to a music major program. Students will delve into experiences in the composition, production, performance, and monetization of jazz-based improvisatory music.

MINOR IN MUSIC

This minor allows students in a major other than music the opportunity to learn music theory and history as well as experience private instruction and performance ensemble opportunities.

MASTER OF MUSIC EDUCATION

The Master of Music Education program will enable certified, practicing K-12 educators to expand their knowledge of the field and improve their musicianship and leadership skills. Coursework is offered entirely online to accommodate working professionals.
