PEOPLE, NEWS & NOTES

SURVEY RESULTS COMPILED

Results of the Communication Survey distributed by the students in PR show that most students obtain the information they need through word of mouth, posters around campus and campus publications, respectively.

According to those surveyed:

The rate of readership among the campus publications is:

48% rated *Communique* first

21% rated *LindenWorld* first

20% rated the write-in "Subway Express" first

11% rated *LindenWord* first

More student interest material, a speakout column, more campus news and feature articles were requested by responding students.

The survey also reported that the majority of Lindenwood students do not listen to KCLC AM or FM.

The survey was distributed to full-time day students to determine the effectiveness of campus communications. A specific report of the survey is being compiled and will be distributed to all campus mailboxes in the next week. For additional copies, information or comments, please drop a note in Box 271. Thank you to all who participated in the survey.
