## Air Pollution Expert to Speak September 29

On Thursday, September 29th, Mr. Joel Schwartz, one of America's foremost experts on air pollution, will be presenting "Why America's Air Quality is Better than you Think" as part of the Lindenwood Economic Policy Lecture Series. Joel Schwartz is a Visiting Fellow at the American Enterprise Institute in Washington, DC and previously directed the Air Quality Project for Reason Public Policy Institute. Mr. Schwartz has also been a public servant -- executive officer for the California Inspection and Maintenance Review Committee and a senior policy analyst in the Legislative Analyst's Office in Sacramento. His most recent book is No Way Back (AEI Press). Schwartz writes, "It would be virtually impossible for anyone, no matter how tenacious or determined, to prevent continued and substantial reductions in air pollution."

This lecture will be held in the Anheuser-Busch Leadership Room of the Spellmann Center at 3:00 pm. Admission is free, and the event is open to the public.
