Students are...

Students

are the most important people in our business.

Students

are not dependent on us. We are dependent on them.

Students

are not an interruption of our work. They are the purpose of it.

Students

do us a favor when they ask. We are not doing them a favor when we answer.

Students

are not cold statistics. They are flesh and blood human beings with feelings and emotions like our own.

Students

are not the ones to argue or match wits with.

Students

are people who bring us their wants. It is our job to fill those wants.

Students

are deserving of the most courteous and attentive treatment we can give them.

Students

are the life blood of this and every other institution.
