Student Research Conference 2018 Open for Student Submissions

The Student Research Conference is a forum for students to display their scholarly and creative projects to Lindenwood students and faculty. The fifth annual conference will take place on Wednesday, April 18, 2018. Students' work will be featured in poster formats or as presentations in concurrent sessions or panel sessions. Interested students can visit the [Student Information page](#) for further details and to access the Student Submission Form through Tuesday, March 20, 2018. Contact SRC@lindnewood.edu for questions or concerns.

Student Research Conference-- Faculty Recommendations

Students who are working on or who have completed original research papers or creative projects can be nominated by a faculty member to participate in the Student Research Conference. Students can either display a poster or give a presentation of their work at the conference. [Faculty nomination forms](#) are available on the [Student Research Conference Website](#).

If interested, faculty can also recommend a panel presentation for their students. All students who are nominated will be contacted via email and invited to submit an application, which includes a 250-word abstract describing their work. In addition, nominating a student's work does not guarantee that student's acceptance admission to the conference; students who are interested in presenting in the conference MUST submit an application.
