“ACCURATE ALWAYS”

One of the most completely equipped departments of Lindenwood is the secretarial department. This department has been in existence in the college for several years, but has broadened and expanded until it now embraces practically every phase of business administration.

The department has a bank in which banking and the various sides of banking are portrayed in a thoroughly practical manner. Typewriting and shorthand, bookkeeping, law business methods, and filing make out the full curriculum.

A wide knowledge of methods of business is apprehended and everyone has an individual chance to show and use her knowledge in a practical way. The slogan is “Accuracy Always,” and this slogan guides the department while it endeavors to make broad-minded business women who will be able to go out from the college and take their respective places in the world of commerce and finance.

In addition to the interest in the regular commercial subjects, a great deal of enthusiasm is shown in the Commercial

Club, where new ideas are studied and discussed and the lives of successful business men and women are read to a great advantage. “In fact,” said Miss Allyn, head of the department, “my girls are enthusiastic about every bit of their work—and they are making good in all lines.”

Four years are required for the completion of the regular course leading to the degree of B. S. For the students who find it necessary to withdraw at the end of the second or third year, special arrangements can be made to take such subjects as will fit her to meet the requirements of the ordinary business position.

Many of the girls who have had only one or two years’ work in the department are now holding responsible positions. After one year in this work one of the girls has complete charge of an office of a chain of bakeries. Another intends to teach commercial work in a Missouri high school this coming year. Still another has a splendid position with the Cook Publishing Company. These are but a few of those who have made good in their work.

NEW MEMBERS OF THE FACULTY

MISS DOROTHY W. BRIDGWATER, who succeeds Miss Sarah M. Findley as Librarian and teacher of Library Science, is a graduate of the same college as Miss Findley—Simmons. Miss Bridgewater is a native of West Haven, Conn. She attended the high school of her native city and afterward took the four-year course in Simmons College, where she was graduated with honors, being admitted to the Simmons Academy, which is an equal honor to the Phi Beta Kappa of other colleges and universities. While pursuing her course in Library Science, she won the distinction of a most capable and efficient student and was especially recommended by Miss June R. Donnelly, Director of School Library Science in Simmons College, to Lindenwood College to maintain the Simmons succession of capable librarians sent to us from that school.

MISS MILDRED DIAL of the Class of '22 has accepted the position of Instructor in the Home Economics department and will enter upon her work at the opening of school. She succeeds Miss Louise McGee, another Lindenwood graduate, who retires on account of her approaching marriage. Miss Dial did such splendid

work while a student here the past four years that she won her way to the position she is about to take. We predict for her a most successful year in her department. It is a great source of satisfaction to the head of the Home Economics department—Miss Mary C. Nye—to see her pupils qualify for positions on the faculty. Few Home Economics departments have the splendid leadership and modern equipment that Lindenwood possesses.

DR. ARDEN R. JOHNSON. When Dr. Johnson was called to head the department of Chemistry, he hesitated before accepting the letter proposals until he had seen the "plant." Upon his first visit he was convinced of the up - to - the - minute equipment of the Chemistry department and the thoroughness of the work done. He was in common parlance agreeably surprised. A graduate of the University of Wisconsin, he has conferred upon him the degrees of B. S., M. S., and Ph. D.

LINDENWOOD COLLEGE

He was first an instructor in his Alma Mater and then took a professor's chair in DePaul University, Chicago, and afterward a chair in Northwestern University. He comes to Lindenwood after experience in technical work in Chemistry in Chicago. Dr. Kahlenberg of Wisconsin University, whose opinions are very conservative, in writing the College concerning Dr. Johnson, ventures the assurance that he can vouch for Dr. Johnson's success.

DR. BERTHA E. MARTIN. Mount Holyoke faculty furnishes us with a successor to Miss Louise Laipple, head of the Biological Science department. Dr. Martin is a graduate of Mount Holyoke, Class of 1909. In 1915 the University of Chicago conferred upon her the degree of Ph. D.

She has been at the head of the Biological Departments of the following colleges: Mount Union, Wheaton, Mount Holyoke. We welcome Mount Holyoke's representative to the Lindenwood faculty.

FLORENCE W. SCHAPER needs no introduction to the recent girls of Lindenwood. In 1918 we were still a secondary school, conferring only the Junior College degree of A. A. Miss Florence that year finished the course with distinction. In her advanced work she pursued the course of Education and Sociology in the University of Missouri and was gradu-

ated with honors. The summer following graduation she successfully taught in the State Teachers' College at Warrensburg, and later accepted a position in the Edinboro State Normal School at Erie, Pa. All who are acquainted with Miss Florence feel sure she will maintain her high reputation in a professor's chair in Lindenwood.

MARGARET E. SEYMOUR is another student of Lindenwood that has gone out and made good and is returning as an instructor. Living in Chicago, she took the advanced courses after leaving Lindenwood in the Chicago University. There she received her B. S. degree and is well

advanced toward the degree of M. S. Miss Seymour will be an assistant in Biology and Bacteriology, her specialties. It is a coincidence that her mother, Margaret Petitdidier, Class 1891, was both a student and teacher in Lindenwood.

MISS MARJORIE THOMAS, graduate of the University of Wisconsin, will be an assistant to Miss B. Louise Weld, head of the department of Physical Education. Miss Thomas is a resident of Appleton, Wis., where she attended High School before entering the University to specialize in Physical Education. She comes highly commended by the faculty of her Alma Mater as a young lady of rare attainments in her chosen profession.

LINDENWOOD COLLEGE

MISS MARY LOUISE WRIGHT, who assisted in the department of Oratory during the absence of Miss Porter during sickness in her family, will return to Lindenwood to take the place of Miss Mary Barnes. Miss Wright has a host of friends among Lindenwood girls, who will rejoice to know she is to have a permanent place on the faculty.

MISS RUTH WHITE is a native of Butler, N. J. She attended Blair Academy, Blairstown, N. J., and afterward was a student at Smith College and Syracuse University. She received the degree of Bachelor of Oratory at Emerson College, Boston, Mass., in 1916, and has had experience as head of the departments of Oratory in LaGrange, Ga., Athens College, Athens, Ala., and West Virginia Wesleyan. "She is well prepared," writes

a leader in her work, "has the faculty of imparting her knowledge and is sincere in her work. She has a pleasing personality, displays excellent taste, and is a refined and cultured young woman."

MISS CORA V. WALTER, the new Dietitian, succeeds Miss Mabel M. Hostetter, who leaves to enter upon duties pertaining to household affairs over which she will be supreme. She and Miss Walter are friends and graduates of the same school of Home Economics in Battle Creek, Mich.

For the past three years the "good eats" have been a subject of daily comment and Miss Walter is going to keep up the splendid reputation of our "table." A resident of Elgin, Illinois, she has been in recent years Dietitian of the Woman's Hospital of Tennessee, located at Nashville. She comes with words of highest praise from the Southland for her efficient services and everybody at Lindenwood welcomes her and wishes her well in serving the finest dishes of good things that are in her repertoire.

SUMMER SKETCHES OF STUDENT VACATION

WE WISH we could give definite information of the doings of all our girls during the past summer. Here are some sketches of some of them, as extracted from letters to the office.

ELIZABETH DEMING of Kansas spent the vacation touring the Canadian Rockies. Now Elizabeth always has a good

time and we are sure she will be able to tell of some wonderful conquests the past summer. She writes she will be on hand when school opens.

BETH HALL writes from the hospital after an operation for us to save her a room, for she is returning for her Senior year and bringing a new girl with her.

L I N D E N W O O D C O L L E G E

We are sorry to hear that the genial Beth had to go through an operation but we rejoice in her complete recovery.

FAYE McCORMICK, after vacationing in Colorado, is back at her home in Wichita Falls, Texas. She also writes she will be here for the opening of school.

BLANCHE TRAYNOR, our own talented Blanche, "discovered" hot weather in Dodge City the past year, but between dips in the Arkansas City River got time to work for L. C. She will bring back with her two new girls. Hurrah for Blanche!

FRANCES BECKER of St. Charles spent the summer in the East, visiting friends and relations.

MARY CLARK and JUANITA THOLL, after climbing down Pike's Peak, discovered Dr. and Mrs. Roemer in Manitou and held an L. C. reunion. Among the girls at Manitou were Elizabeth Wyman, Lyle Dickey, Thelma Rich and Lucile Fibus.

RILYE NELSON spent the summer at Wequetonsing, Mich.

PAGE WRIGHT and DOROTHY ENGLISH were at Camp Ozark, having the time of their young lives. They have promised to be back early, to see that the school is properly opened. We can't do it without you, girls. Come early and avoid the rush.

IVA ADAMS of the Class of '20 has been having some experience teaching little Indians in Oklahoma, but cannot resist the call of L. C., so will be on the receiving line September 13.

MAY HARRISON of Great Bend, Kas., when she returns will be accompanied by

two girls, one her sister, the other a "Bird" whose name happens to be Ruth instead of Gertrude.

"JACK" HORNER, Class of '22, prize song writer, author and leading athlete, spent the summer in Europe.

LUCILE KIRK of Falls City, Neb., visited Marian Sheldon of Watertown, New York.

CATHERINE MORGAN of St. Joseph, Mo., made an extended visit to New York City the past summer. While there she visited Dean Templin at Columbia University.

MILDRED MELSHEIMER of St. Louis during July and August visited with her schoolmates, Harriet Ridge of St. Joseph, Margaret Young of Mound City, and Lois Luckhardt of Tarkio.

RUTH KERN, the accomplished editor of the BULLETIN, after a strenuous summer writing news for the BULLETIN, spent the month of August at her home in Butler, Mo. Ruth is very proud of her editorial job and the College is equally proud of its new editor.

DELMA ARENOWITCH, of Columbus, Ga., whose favorite hall expression was "make it snappy," delivered in true Southern dialect, is sending her sister Marie for an L. C. girl this year.

THELMA TOBIN of DeQueen, Ark., will be back this fall and brings a new student—Hazel Cannon.

MARY HELEN ROGERSON of LaGrange, Ill., will return and bring two new girls.

GLADYS HOWARD of Excelsior Springs, Mo., was one of the June brides. The lucky man was Mr. Chet Adams of Chillicothe, Mo. Gladys' sister Florence will be with us this year.

LINDENWOOD COLLEGE

LOUISE CHILD of Richmond, Mo., edited the home town paper during the absence of the editor.

MISS KATHARINE PENCE and JULIA MASTIN of Kansas City, Mo., have recently enrolled in Lindenwood.

MARGUERITE MCNEE of Cottonwood Falls, Kas., has been spending the summer at Long Beach, Calif.

FRANK DEAN CATHEY of Tulsa, Okla., expects to return with her friend, Faye Deal of Wynnewood, Okla.

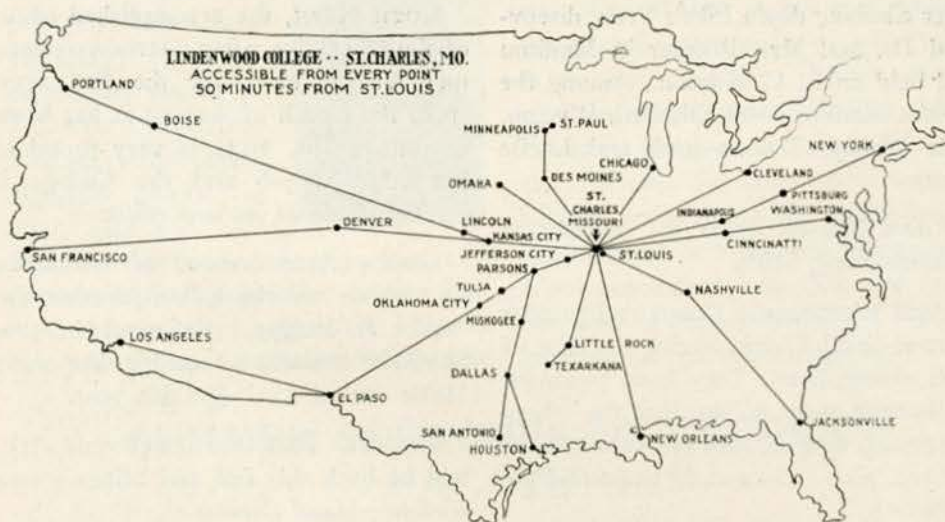

We will have a few Cross people at the beginning, as LAURA and her sister will both be here, but we hope "Martie" Porter, who also comes from Lathrop, Mo., will have them in a good humor by the time they arrive.

PAULINE REEDER of Amarillo, Texas, has been doing some splendid work and has sent us two new girls.

SARA JANE MURRELL of Marshall, Mo., Class '19, is in Europe.

MILDRED WALLINGFORD of Ashland, Kas., is visiting relatives in Kentucky.

"THE GIRLS ALL COME TO LINDENWOOD FROM NORTH, EAST, SOUTH, AND WEST"

Indeed yes, and every year sees them enrolling from wider districts. This year by the first of August there were girls enrolled from New York City to Alhambra, California, from the northern part of Michigan to New Orleans. They come from the homes of the rich and the poor, as well as from the great middle classes. They come from high schools, from other women's colleges, from boarding schools, and from universities. In short, they seek the training that Lindenwood gives her girls.

EASTLICK HALL

The Board of Directors could not see its way clear to put up the "Teachers' Dorm" recommended by the President, but it found the way clear to make Eastlick Hall look like new. Houston street, from Watson to Butler Way, was given the College by the city in June, and the Board of Directors have transformed it into one of the finest "ways" on the Campus. This will give Eastlick a commanding situation on two fine streets—Watson and Houston. The old fence on Watson has been removed, the barn and other outbuildings removed, a stone wall placed on Kingshighway, and Eastlick Hall has been "dolloed up" quite gorgeously for the teachers who occupy it.

A WORD OF SYMPATHY

The BULLETIN wishes to express in behalf of faculty and students profound sorrow in the hour of bereavement of two of our students. Ruth Roy mourns the loss by death of a loving father; and Helen Sturtevant a devoted mother.

LINDENWOOD'S FACULTY

The Faculty for the coming year is as it should be—the best in our history. Filling some of the vacancies caused by marriage and removals, some of the best-equipped teachers have been secured. A college is made up, not of brick and stone and land, but by personalities who occupy the teachers' chairs. Lindenwood has always been careful in its selection of high grade teachers, and the money expended in securing them, though larger than most schools of our size, has never been spared to assure Lindenwood students the very best.

NEW ROADWAYS

Lindenwood has been shut off from the public most of the summer. The road contractor, Mr. Joseph A. Bottani, and his large corps of workers have been busily at work constructing new roadways. St. Charles celebrated a whole week when it opened up the newly paved Main street. "Teddy" Bruere says: "When Lindenwood opens its new tarvia roadways we will have to take two weeks to do it right." Thousands of dollars have been spent in building new roadways, improving the old, and beautifying the campus. "Keep your eye open," says Mike, "to find Lindenwood the garden spot of St. Charles."

THE MOTLEYS GO TO HOUSEKEEPING

Mr. and Mrs. Motley have gone to housekeeping. They think it's lots of fun. This is their first experience, though married ten years. Mr. Motley will enjoy the pleasures of getting up early, starting the fires, and insisting on Mrs. "Mot" getting breakfast over with, so he can get to his College office at eight o'clock and begin "secretarying." We can hear Mrs. Motley saying: "Well, the dream of my life has been realized: I have a home of my own." Ever since Mr. and Mrs. Motley have been married they have had duties on the campus of girls' schools that held them fast to the institutions. When Guy said to Mrs. Guy, "I have gotten a fine house on Jefferson street to live in and Dr. Roemer has agreed to the new plan," it is reported that she was so overjoyed that she suggested going to Yellowstone at once, before all the money was spent in

buying new furniture. Just watch the home of the "newly-weds" (?) on Jefferson street, and the man in the garden and the wife in the kitchen, as you go by some fine afternoon after school is out.

THE DORMITORIES

"Old" girls and "new" girls will find many changes in the dormitories. During the summer improvements have been made in all the dormitories. Lindenwood never allows its dormitories to grow old. They are substantially built at great expense and are the best to be found on any campus. Among the dormitory changes will be the arrangement of students by classes as far as possible, the Freshmen and Specials occupying Nicolls and Sibley Halls, the upper classmen the other buildings. The management of the dormitories has been changed as to former rules and we believe for the greater benefit, convenience and liberty of the students. Miss Margaret Johnson will again preside over Butler; Miss Edna Hough over Sibley; Mrs. Roberts, who for a number of years was head of Jubilee, will again be found in that building. Miss Louise Child of the Class of 1922 will be in charge of Nicolls and minister to the welfare and happiness of all Freshmen. She will be assisted by Miss Helene Millsap. All permissions, except those for week-ends out of the city, will be obtained from the heads of buildings, all other permissions being granted by the Dean of Students.

ATTENTION, NEW GIRLS!

While the enrollment of former students has been exceedingly large, there will be a larger number of students here

for the first time. The most difficult part of a student's life is the "breaking in" period. Like new shoes, we will feel a little uneasy in them at first. We always have the greatest sympathy for the "new girl." She finds everything new and different from the home surroundings; she has to get used to the new life upon which she is entering. But, New Girl, let us tell you something! The girls at Lindenwood are the finest in the world for trying to make you feel at home. In a few weeks you will love them so you will wonder how you ever came to have a case of homesickness. Don't give up at first inconvenience that comes your way because you are new and a little green. Just make yourself congenial to others who are anxious to fellowship with you and lend a hand in getting you started right. We can tell you this from the experiences of many girls who have been here and hold an undying love for the old school. There is a Scriptural injunction that those who have friends must show themselves friendly. You can look up the location of the passage of Scripture to satisfy your curiosity; but if you follow the admonition you will have lots of "big sisters" who will grow dearer to you as the days go by.

THE NEW GYMNASIUM

The students of the year 1922-23 will use the largest gymnasium ever on the campus of Lindenwood College. Last spring the Board of Directors listened to the request for more gymnasium room and provided funds for the enlargement of the old gym to nearly twice its size. May 1st the foundation was commenced and the contracts let. Some delay in the work was occasioned by delay in receiving materials, owing to railroad strikes,

but the building was completed in August and will be ready at the opening of school. The Physical Education department will have plenty of room for their work, and the enlarged space will make it possible for the receptions of the student body without crowding.

GOLF

For some time our students have been indulging the hope that part of the large campus could boast golf links. Well, our fond hopes will be realized. Under the direction of Professor Sterling of the Kansas University and his nephew "Jack," a six-hole golf link has been laid out for the opening of the new term. Next year additional holes will be added and we will have a golf course that will be hard to be excelled.

ARCHERY, TENNIS, ETC.

Outdoor sports will abound in profusion the coming year. Archery, tennis, hockey, et al., will be indulged by the lovers of outdoor athletics. It is the purpose of the management to have Lindenwood girls the healthiest, prettiest, and best disciplined in body, mind and spirit.

DOINGS OF THE TEACHERS DURING THE SUMMER

It is always interesting to students to know what the teacher does in summer vacation. Well, she is just like students, only a little older. She enjoys herself like an average human being — given to play, seeking more information at the fountain head of learning in universities, etc. We are not going to be responsible for tracing every individual member of the faculty, but as far as our limited

knowledge goes, we can gossip about the doings of some of them.

DEAN TEMPLIN, with an ambition to be known as Dr. Templin, has been plying the faculty of Columbia University, New York, with hard and fascinating questions.

MISS PUGH is also in the New York colony, feasting on themes and points of literature that may be of great interest to the English classes.

DR. CALDER has been in California all summer, preaching good sermons to the good people of Santa Ana.

MISS HATCH reports that nature is grand in the Northwest and Alaska. She spent the summer of '21 abroad but thinks Alaska cannot be equalled for grandeur.

DR. STUMBERG took a flyer in August to Virginia to enjoy the mountain air and scenery before beginning his lectures in the fall.

MISS SUTHERLAND spent the summer at Chicago University.

MISS HANKINS was a part of the summer faculty at the University of Colorado in Boulder.

PROF. JOHN THOMAS was at the Cincinnati Conservatory of Music as an instructor.

MISS LINNEMANN, after perambulating over adjoining states organizing and visiting Lindenwood College clubs, spent the larger part of her vacation in St. Charles.

MISS SPAHR as usual was doing heroic duty in camp life in New England.

Upon the return of our professors, we will listen in the class room and in social gatherings to the "wonderful time" the past summer.
