## KCLC Joins Exclusive Music Chart

KCLC Radio has been added to Mediabase's Adult Alternative Activator Panel. KCLC already serves on both the Billboard Magazine Adult Alternative Monitored Panel and Jack Barton Entertainment (formerly FMQB Magazine) Adult Alternative chart. However, Mediabase represents a more exclusive grouping of stations that measures listeners, as well as the number of times a record is played.

Representation on music charts is important. It indicates that KCLC is seen in the industry as a professional station that is staffed by college students. So, while gaining experience at KCLC, Lindenwood students are seen as peers of their professional counterparts, with their record spins being given equal weight to those of professionally staffed stations.

At KCLC, students receive real experience working in all departments of the radio station from daily interfacing with record labels, interviewing and recording sets from national touring artists, working as sportscasters around the region, and serving as DJ's on a major market, charted radio station, with a potential reach of more than 2.3 million.
