MBA Program Recognized as Largest in St. Louis Area

December 6, 2017

In December 2017, Lindenwood University's MBA program was recognized by the *St. Louis Business Journal* as the largest in the St. Louis area, based on 2017-18 enrollment in area schools' MBA programs.

According to the *Business Journal* list, MBA enrollment stands at 714 students for 2017-18, with the next closest schools posting MBA enrollments of 702 and 698 for the same period. The listing also includes data on tuition, average class size, and the number of faculty. Lindenwood's tuition rate was the second lowest among the 13 schools on the list and the lowest among the independent schools. The average class size (12) was the second smallest on the list.

Lindenwood's MBA is available in a five-term format, a quarterly Accelerated Degree Programs format, and an online format. Students may finish in as little as a year in the five-term format or 18 months in the Accelerated Degree Programs format.

"This ranking is an excellent demonstration that the versatility, quality, and affordability of our MBA programs combine to make an outstanding option for students," said Terry Whittum, vice president for enrollment management. "MBA students today are looking for every advantage they can get, and we invite them to contact us to learn more about what we have to offer."
